

Schriftliches Multiplizieren 5 LÖSUNG

(Für mehr Nachhaltigkeit: Vergleicht die Lösungen am Bildschirm und druckt diese nicht aus.)

Berechne die folgenden Aufgaben schriftlich.

| | | |
|-----------------------------------------------------------|----------------------------------------------------------|-----------------------------------------------------------|
| $\begin{array}{r} 368 \cdot 5 \\ \hline 1840 \end{array}$ | $\begin{array}{r} 245 \cdot 2 \\ \hline 490 \end{array}$ | $\begin{array}{r} 542 \cdot 2 \\ \hline 1084 \end{array}$ |
|-----------------------------------------------------------|----------------------------------------------------------|-----------------------------------------------------------|

| | | |
|-----------------------------------------------------------|-----------------------------------------------------------|-----------------------------------------------------------|
| $\begin{array}{r} 474 \cdot 4 \\ \hline 1896 \end{array}$ | $\begin{array}{r} 395 \cdot 4 \\ \hline 1580 \end{array}$ | $\begin{array}{r} 772 \cdot 5 \\ \hline 3860 \end{array}$ |
|-----------------------------------------------------------|-----------------------------------------------------------|-----------------------------------------------------------|

| | | |
|-----------------------------------------------------------|-----------------------------------------------------------|-----------------------------------------------------------|
| $\begin{array}{r} 223 \cdot 7 \\ \hline 1561 \end{array}$ | $\begin{array}{r} 364 \cdot 5 \\ \hline 1820 \end{array}$ | $\begin{array}{r} 624 \cdot 5 \\ \hline 3120 \end{array}$ |
|-----------------------------------------------------------|-----------------------------------------------------------|-----------------------------------------------------------|

| | | |
|-----------------------------------------------------------|-----------------------------------------------------------|-----------------------------------------------------------|
| $\begin{array}{r} 524 \cdot 4 \\ \hline 2096 \end{array}$ | $\begin{array}{r} 245 \cdot 5 \\ \hline 1225 \end{array}$ | $\begin{array}{r} 747 \cdot 6 \\ \hline 4482 \end{array}$ |
|-----------------------------------------------------------|-----------------------------------------------------------|-----------------------------------------------------------|

| | | |
|-----------------------------------------------------------|-----------------------------------------------------------|-----------------------------------------------------------|
| $\begin{array}{r} 548 \cdot 7 \\ \hline 3836 \end{array}$ | $\begin{array}{r} 731 \cdot 8 \\ \hline 5848 \end{array}$ | $\begin{array}{r} 872 \cdot 7 \\ \hline 6104 \end{array}$ |
|-----------------------------------------------------------|-----------------------------------------------------------|-----------------------------------------------------------|

| | | |
|-----------------------------------------------------------|----------------------------------------------------------|-----------------------------------------------------------|
| $\begin{array}{r} 991 \cdot 3 \\ \hline 2973 \end{array}$ | $\begin{array}{r} 109 \cdot 9 \\ \hline 981 \end{array}$ | $\begin{array}{r} 653 \cdot 6 \\ \hline 3918 \end{array}$ |
|-----------------------------------------------------------|----------------------------------------------------------|-----------------------------------------------------------|
